## In this context, reliable information on how your company compares to the marketplace is crucial

- CLIPS is Willis Towers Watson's U.S. commercial lines pricing and profitability survey
- Information comes directly from carriers
- Data-based
- Free
- Confidential
- Only participants receive the detailed survey results

## CLIPS gives participants more and better historical information on pricing and profitability

- We collect information from participating companies each quarter
  - Estimated price changes by quarter for the last two years
    - Year-over-year percentage changes
    - Including the effects of coverage changes as well as rates
    - Including new business if available
  - Estimated increases in loss costs by year for the last two years
- We deliver customized summary results back to the participants

**Submitted data are reviewed for reasonableness and consistency but not audited**

## CLIPS information is collected and reported at line of business and account size level

## Investment analysts use CLIPS to take the pulse of the industry

*“...Willis Towers Watson’s survey takes the commercial lines writers’ view (what they have done with pricing and how that impacts profitability). We think the Willis Towers Watson survey will be a better benchmark for investors (and management).”*

— Insurance industry investment analyst, quoting CLIPS results shortly after launch

## Current participants — and their shareholders — benefit from insights from CLIPS

*“...We continue to focus on balancing price and retention in this competitive market...Of the various commercial lines industry pricing surveys, we favor the Willis Towers Watson CLIPS survey because of its data collection methodology...”*

— Participating company CFO, Quarterly Earnings Conference Call
