

# Group Home & Auto Insurance Program

## The advantages of a Willis Towers Watson group home and auto program

### A benefit for employees at no cost to your company

Similar to an employee's benefits package like dental coverage, this perk can be offered to employees in order to save them time and money, and best of all it's at no cost to your company.

### Employees receive discounted group rates

One of the ways we save members money is by giving them group buying power. We partner with insurance carriers to offer preferred rates based on employee demographics.

### Marketing tool kit tailored to your organizations brand

Quite often we find people don't know where to go get their insurance and are not aware of what is available to them from their organizations. Customized marketing is what's going to let your employees know they have this available.

### We handle all the administration

When we say that we handle all the administration and there is minimal effort on your end to set up this program, we mean it. The last thing we want to do is bring more work to your teams.

### Private Client Solutions for Executives

Our team also specializes in helping senior executives with more complex needs and lifestyles with all of their personal insurance needs.

Willis Towers Watson can offer employees and association members preferred rates with group buying power. With little to no effort and zero cost on the part of the employer or association, our Group Home & Auto Insurance program develops a win-win relationship between the employer and employee.

This model means that no two clients have an identical Willis Towers Watson experience. You get a tailored group of experts to help your organization execute your home and automobile program.
